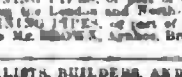
CONTRACTS.

GENERAL LAND DRAINAGE and IMPROVEMENT COMPANY.—To DRAIN-PIPE MAKERS.—Persons willing to CONTRACT for the supply of DRAIN PIPES and COLLARS for the drainage of lands in the Tees Valley, are desired to send in tenders for the same on or before the 15th day of DECEMBER next, directed to Messrs. DENTON and DRAKE, Surveyors, 33, Parliament-street, Westminster. The tenders must state the price per 1,000 feet or per foot at which the following sizes can be delivered by canal at Ramsey, Stockton-on-Tees, and Fullerton:—9-inch pipes, collars to the same; 12-inch pipes, collars to the same; 3, 4, 5, 6, 8, 10, 12, 14, 16, and 18-inch pipes, with and without sockets.

DRAINING PIPES.—WANTED, to be delivered immediately, near Banbury, on the Oxford Canal, about 200,000 DRAINING PIPES, or part of them; also, at the Brackley Station, on the London and North-Western Railway, about 30,000 DRAINING PIPES, or part of them.—Tenders to be sent addressed to Mr. BROWN, Architect, Brackley, Northamptonshire.

TO CAPITALISTS, BUILDERS, AND OTHERS.

TO BE SOLD, a very advantageous BUILDING CONTRACT.—The contract is to build on one of the most promising sites near London. It is immediately contiguous to a railway station, and within fifteen minutes ride of London. The reason the contract is to be disposed of is, that very unexpectedly the party who has it has not been able to give his attention to other pursuits. It would afford a very large profit to a capitalist and to builders. If assistance to complete the buildings stipulated to be erected be required, advance will be made. There is an ample supply of good water; and bricks of a superior quality can be made on the land embraced by all the buildings to be erected.—Applications to be made to Mr. CLARK, Solicitor, 3, Dean's-court, St. Paul's-churchyard.



By Her Majesty's Royal Letters Patent.

PITT'S PATENT SELF-ADJUSTING DOOR KNOBS AND LOOSE SPINDLES.

HART and SON beg to invite the attention of Architects, Builders, and others, to their New Furniture, mounted for PITT'S PATENTED SPINDLES. The knobs are stronger, more durable, and more elegant in form, than those in ordinary use, as the spindles, being loose, do not require the objectionable side screw. They are more readily fixed, are suitable for every description of door now in use, and, as they adjust themselves to doors of different thicknesses, without alteration, are particularly adapted for the country or for exportation. They are made to suit every style of decoration; in China, crystal, metal, and wood stem, buffalo, bone, ivory, ebony, brass, &c. on suits with finger-plates, bell-pulls, levers &c.—May be obtained of all Ironmongers; or of the Proprietors and Manufacturers, HART and SON, Wholesale and Manufacturing Ironmongers, 33, 34, and 35, Wych-street, Strand, London.

GEORGE HART, 253, STRAND,
Near Temple Bar,
PROPRIETOR AND MANUFACTURER

G. H. COTTAM, JUN. AND CO.

AUSTIN'S IMPERIAL PATENT SASH and BLIND LINE,
can be obtained of all
IRONMONGERS, IRON-FOUNDERS, FACTORS, AND WHOLESALE DEALERS IN TOWN OR COUNTRY.

PIG IRON, CASTINGS, MACHINERY, &c.—The undersigned, Agent for some of the leading Ironmasters, Iron Founders, and Engineers in Wales, is prepared to TAKE ORDERS for every description of these goods, and have them executed with punctuality and dispatch. Pipes and Girders of large dimensions done in a superior style.
HU. FERGUSON.
28, Buckleysbury, London, Oct. 28, 1852.

BUILDERS, Contractors, Carpenters, and others are invited to inspect the stock of NAILS, TOOLS, BRASS, AND GENERAL IRONMONGERY at PFEIL and STEDALL'S,
Nos. 5 and 6, BROAD-STREET, BLOOMSBURY.
The prices will be found the lowest, and the stock one of the largest in the trade. A price list sent on application.

HEATING BY HOT WATER.—J. JONES, Iron Merchant, has always a great variety of CONICAL and SADDLE BOILERS in STOCK: also fire and furnace bars, ornamental and plain supply cisterns, double doors and frames, furnace frames, fuel doors for the same, hot water pipes, elbows, tees, syphons, throttle valves, stop cocks, flange and socket elbows, &c.; also, trough pipes. Drawings and prices of the above on application to J. JONES, Iron-bridge wharf, No. 6, Bankside, London, near the South-Western iron bridge.

HOT WATER APPARATUS.—The attention of Architects, Builders, and others, is respectfully requested to BENJAMIN FOWLER'S superior method of heating churches and chapels, halls, chatrooms, conservatories, forcing and greenhouses, manufactories and warehouses, films, rooms for drying timber, &c. and every variety of purpose for which artificial heat is required. Within the last twenty years some hundreds of buildings have been heated upon this plan, and the parties for whom they were executed are constantly expressing their satisfaction, also their willingness to vouch for their efficiency.
BENJAMIN FOWLER, Whitefriar-street.

STEPHENSON and PEILL, 61, Gracechurch-street, London, and 17, New Park-street, Southwark, Manufacturers of COPPER CYLINDRICAL and improved CONICAL IRON BOILERS, and Conservatory and Hot-house Builders, either in wood or iron, respectfully call the attention of the nobility, gentry, and nurserymen to their simple but efficacious method of warming horticultural and other buildings by Hot Water. From the extensive works they have executed references of the highest respectability can be given, and full particulars furnished on application.

CALORIFERE.—Gold Medal, Paris Exhibition, 1855.—A 250,000 cubic feet room warmed by hot air only, at 45 degrees Fahrenheit, in burning 10 lbs. of coal per hour. The most complete safety against fire, the healthiest and most powerful ventilation, without any machinery, are obtained by BOILEAVE'S PATENT CALORIFERE. The constant supply of fresh air carries out instantaneously, by a new well-improved process, all damp or vitiated air, that makes it very desirable for churches, schools, theatres, hospitals, manufactories, clubs, houses of any size, laundries, and green houses. The Calorifere has been adopted by his Grace the Duke of Bedford, at Woburn Abbey, by several architects, and it may be seen in operation in many places in London and country.—Apply, per post, to T. BOILEAVE, French Engineer, 147, Fenchurch-street, London.

VENTILATION—PURE AIR.

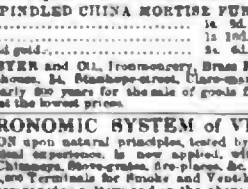
Sheringham's Ventilator, for the admission of pure air through an

EXTERNAL WALL.

With single pulley, from 6s. each; with leading pulley, from 8s. 6d.

These Ventilators are so arranged that the requisite quantity of air may be admitted for the due ventilation of an apartment without the slightest draught being felt by the occupants; and as they are placed in the external wall, their action is not impeded when the house is closed for the evening, at which time a constant supply of fresh air is most required.—HAYWARD, BROTHERS, sole Manufacturers, 1st, Blackfriars-road, and 117, Union-street, Borough; and of all respectable Ironmongers, builders, &c.

REGISTERED VENETIAN VENTILATOR.



ALSO,
DR. ARNOTT'S VENTILATING CHIMNEY VALVES,
at the following reduced prices:—

No. 1. Plain Valve	3s. 6d.
No. 2. Re-aired and feathered	4s. 6d.
No. 3. Bronzed and feathered, with trellis-work	6s. 6d.
No. 4. White and gold lines, with trellis-work	8s. 6d.

PATENT SPINDLED CHINA MORTISE FURNITURE

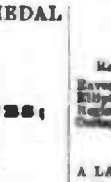
White	1s. 9d. per set.
Black	1s. 10d. "
White and gold	2s. 6d. "

J. H. BOOTHBY and Co., Ironmongery, Brass Foundry, Nail and Tool Warehouse, 34, Stanhope-street, Clare-market, London (established nearly 200 years for the sale of goods from the best manufacturers at the lowest prices).

THE ARHONOMIC SYSTEM of VENTILATION upon natural principles, tested by fifty years of practical experience, is now applied, without machinery, to Chimneys, Stove-grates, fire-places, &c.

Upwards of 2,500 Terminals for Smoke and Ventilation made to the accompanying pattern and on the above principles have been successfully applied by architects of the highest eminence.

They are ornamental, cheaply fixed, durable, and easily swept. The size for 14 inches by 9 inches flue, price 20s. Flues not requiring the convert and coping course, 2os.



APPLY AT THE
OFFICE OF THE ARHONOMIC ASSOCIATION,
UPPER DORSET-STREET, BRYANSTONE-SQUARE.

Ample directions for fixing; and every one may adopt this admirable invention without sending for a chimney-doctor.

SEE THE ARHONOMIC REPORT.

A. VARNHAM, 41, BEDFORD-STREET, STRAND.

NEW HOUSES OF PARLIAMENT.—DEVRIES' GAS STOVES, RANGES, and BATHS, just completed for two kitchens in the above building.—A great variety in stock upon the same principle. One Baths from 7l. by which a small bath may be obtained for three-halfpence. Gas Cooking and Heating Stoves for all classes, from 2l. Defries's celebrated Dry Gas Meters, 45,000 in use. Testimonials at the office, 143, Regent-street. Manufactories removed from Hampstead-road and St. Martin's-lane to more extensive premises, New-road, near Albany-st.

TOZER'S PATENT VENTILATING GAS STOVE, for halls, shops, offices, &c. price 35s. This stove is constructed on the principle of ventilation, combined with economy, the consumption of gas being only 3d. for twelve hours. The absence of all smoke and dust particularly recommends it for the use of libraries, or wherever warmth is required. Also, TOZER'S PATENT SUN STOVE, to burn coke, suitable for village churches, &c.
T. TOZER,
Ironmonger and Manufacturer,
23, Dean-street, Soho.

CUNDY'S PATENT STOVE.

W. HODGES, late of 123, Oxford-street, begs to announce that he has transferred the Licence for Manufacturing the above STOVES to Messrs. CUTLER and SON, 141 (first Queen-street, Lincoln's-inn, where a large assortment is always kept on sale. Open Fire, Warm Air, Ventilating Stoves, suitable for Churches, School-rooms, Public Offices, Halls, and other Rooms, of all dimensions; and Smoke-consuming Register Stoves, which are guaranteed as a perfect cure for Smoky Chimneys.

EXHIBITION STOVE.—RETTIE'S PATENT.

CAUTION.—Several Medals were given for priorities on the above Stove.—R. M. and M. RETTIE can forward to Scotland or Ireland, or any part of England, the sleeve, suitable for churches, public hospitals, or private buildings, or drying rooms, or manufacturing purposes, ships, hot-houses, &c. &c. Price, from 2l. 5s. to 20l. each, burning only from 2 lbs. to 4 lbs. of coal per day, and warming buildings from 40 to thirty rooms, and no pipes required throughout the building, nor risk of fire; giving a pure warm air, without destruction to the appearance of the building, and adding the pure ventilation at the same time.

All communications, post-paid, by letter to the Agent,
7, Brompton-road.

TO BUILDERS, CARPENTERS, CABINET-MAKERS, &c.

JOHN DALE, 18 and 19, Chiswell-street, Finsbury-square, respectfully invites the above Trades to the inspection of his immense stock of Ironmongery, which cannot be surpassed in variety, quality, and cheapness by any house in London.
